- China-US Youth Maker Competition**
Second Prize Beijing, China. 2018.08
- Dean Scholarship** New York, USA. 2018 - 2020
- National College Student Mechanical Innovation Design Competition**
Second Prize Shandong, China. 2016.08
- Internet + College Student Innovation and Entrepreneurship Competition**
Third Prize Shaanxi, China. 2016.10

Profile

I have 3 years of product design experience and have worked for a startup company for one year. My job routine includes **user research, site map, framework, UI/UX design, interactive prototyping, and front-end development.**

I am very passionate about my job and never stop learning. I enjoy the process of solving problems, untangle complex design challenges, and optimizing user experience. With a multidisciplinary education background, I am very good at communicating and collaborating with people in different positions.

In the process of studying for my master's degree, I also got knowledge of **AR/VR, motion graphics, motion capture, game design, handcrafting, physical computing, and 3D design.**

Experience

- Web Designer** 2020.05 - Now
North America Service Center for Chinese Students LLC, New York, USA
Redesigned the company's original website with WordPress:
 - Did a thorough user research through interviews and other UX methods.
 - Reorganized the information structure of the website.
